

Assignment 1: Business Description
Grade Sheet

Item	Point Value	Deduction	Score	Comments
			100	
Purpose of business	40			
Marketplace	20			
Competitors (4)	40			
	100			

Assignment 2: Competitive Market Trend Analyses

Grade Sheet

Item	Point Value	Deduction	Score	Comments
			100	
CA Competitive Analysis				
CA Item 1				
Must show uniqueness of business	15			
Must not refer to money, profit, margin, etc.	10			
URL	10			
CA Item 2				
Must show uniqueness of business	15			
Must not refer to money, profit, margin, etc.	10			
URL	10			
Market Trends				
MT Item 1				
URL - must be informative	10			
Correct description of trend; must be data that can be graphed (measures past data) (no money allowed)	15			
MT Item 2				
URL - must be informative	10			
Correct description of trend; must be data that can be graphed	15			
Total points deducted		0		

Assignment 3: Basic MS Project

Grade Sheet

Item	Pnts	Deduct		Comments
				If the assignment isn't based on the Foreman example, that's the end of the grading. Input '100' into C3 and the score becomes '0'.
Chart must be based on Foreman example	100			
		Score	100	
Whole Gantt chart shown	10			
Must be in Tracking Gantt printed and used student template	40			
Data columns all printed as shown in Foreman example	10			
Time scales changed	25			
Project start date changed (Set by Project Properties)	10			
4 new summaries created (5 pts. each)	20			
New summaries out-dented to be independent of the summaries above them (2.5 pts. each)	10			
Missing links (10 pts. each)	40			
Incorrect link TYPE (FF,FS, etc) (10 pts. each)	40			
Incorrect link with wrong connections (10 pts. each)	40			
Legend data updated	10			
Total points deducted			0	

Assignment 5: Basic Home Page

Grade Sheet

Item	Max Value	% Off for Errors	Points Off	Comment
forbidden (403) error; not found (404) error; cheating	-100		0	
uploaded late	-25		0	
file list displayed instead of Web page	-50		0	
data entered in wrong order	-25		0	
no business name or disclaimer	-25		0	
no name or presentation number	-50		0	
no lecture # or lab section	-25		0	
no title	-25		0	
title doesn't reflect business	-10		0	
html errors (up to 5 errors @5pts each)	-25		0	
bad or missing email link	-25		0	
any copyright error	-25		0	
error or missing last date updated				
JavaScript	-10		0	
Score	100		0	100

Assignment 6: Add a Milestone (MS Project 2)

Grade Sheet

Item	Pnts	Deduct		Comments
			Score 100	If the assignment is missing the milestone or it isn't of zero duration, that's the end of the grading. Input '100' into C3 and the score becomes '0'.
Milestone (diamond-shaped icon) must be zero duration	100			
			Score 100	
Tasks renamed	10			
Summaries renamed	10			
Start Date is properly fixed	20			
Milestone:				
Milestone labeled "Opening Day"	10			
Milestone outdented to outermost level	15			
Milestone icon dragged at least 1 minor time unit and no more than 3 minor time units after last task's end date.	25			
Milestone has "Must Start On" constraint	25			
Milestone is linked FS from the latest summary.	25			
Original links must not be changed	15			
Task names must be changed	10			
Baseline set for entire project	25			
All data columns are shown on printout	20			
Milestone symbol visible on printout	25			
File is saved with name "MSProject2"	5			
Top margin of printout contains "MS-Project #2 and lecture number"	5			
Legend data updated	10			
Total points deducted			0	

Assignment 7: Practice Internet Hunt

Grade Sheet

Item	Pnts	Deduct		Comments
		Score	100	
Question 1				
URL	5			
Answer	15			
Question 2				
URL	5			
Answer	15			
Question 3				
URL	5			
Answer	15			
Question 4				
URL	5			
Answer	15			
Question 5				
URL	5			
Answer	15			
Total points deducted	100	0		

The rules:

1. All answers to be done with a word processor. Handwritten answers will receive a zero.
2. Write the locations (URLs) which contain the answer. (Copy & paste works well for this.)
3. Write all search arguments YOU typed and the name of the search page (like "Google" or "Yahoo").
4. Do NOT write the computer-generated URLs that contain search argument data. Write down the names of all search engines used for a SUCCESSFUL search.
5. Do NOT give answers like: "I clicked on the third reply from Google".
6. Write the actual answer to the question.
7. You may NOT work together with anyone(!) or use the library or any other resource than the Internet. You may NOT consult (or chat) or email with anyone, anywhere, to get information. Emails DIRECT to the instructors are acceptable for clarification only.
8. No additional hints will be given. No posting to the list.
9. You are required to find the answer and SHORTEN IT DOWN to the simplest response. Do NOT just copy and paste entire paragraphs. Use your ability to analyse what you find.

10 points for a correct answer and 10 points for a correct URL and search arguments. For the URL and search arguments, you must give us enough information that WE can find the same answer you did, using that information.

Midterm: Internet Hunt
Grade Sheet

Item	Pnts	Deduct		Comments
		Score	100	See Practice Hunt notes for rules regarding Midterm Hunt.
Question 1				
URL	2			
Answer	6			
Question 2

Total points deducted		0		

Assignment 8: Frames

Grade Sheet

Item	% Off		Points Off	Comment
	Max Value	for Errors		
forbidden (403) error; not found (404) error; cheating	-100		0	
uploaded late	-50		0	
more than 1 frame definition page; frameset tags mismatched	-50		0	
no title	-15		0	
title doesn't reflect business (e.g. Frame 1 is incorrect)	-5		0	
wrong # frames	-25		0	
incorrect link from Home page to Frames page	-20		0	
link improperly placed on Home page	-10		0	
html errors (up to 4 errors @5pts each)	-20		0	
no frame content	-20		0	
Score	100		0	100

Assignment 9: Flu Season (MS Project 3)

Grade Sheet

Item	Pnts	Deduct		Comments
		Score	100	If the assignment doesn't show the conflict or the milestone is after the conflict date, that's the end of the grading. Input '100' into C3 and the score becomes '0'.
Conflict shown/created (must be obvious) Milestone before conflict date	100			
		Score	100	
Assuming conflict exists, response is given	50			
Correct meaning, must be limited to 5 words	25			
Meaning not urgent enough	40			
Meaning must not only describe the facts of the conflict	40			
Baseline shows moved task	25			
Total points deducted		0		

Assignment 10: Basic CSS

Grade Sheet

Assignment	Pnt Value	Deduction	Comments
		Score	100
Style is embedded in <Head>	15		
Style is for <H3>	15		
BLUE is Presentation #	15		
<H3> is used on some text	20		
Tags are highlighted on printout	25		
Style is displayed on Web page	10		
Total deductions	100	0	

Task	Pnt Value	Deduct	Score	Comments
No Output (1 of 2 possibilities)		Score	100	
File is not found or access is denied	100			
		Score	100	
File exists, but NO output	75			

Output with Mistakes		Score	100	
Common Requirements				
Comment at top	5			
Meaningful title	5			
Meaningful identifiers	5			
Must be defined in <HEAD>	5			
Must be defined as function	5			
Works IE & Firefox	10			
Form objects used correctly	10			
if correct	5			
Calculations correct	10			
Name in proper case	10			
Bill created	10			
<i>(Only 1 Problem per Student)</i>				
PROBLEM 0				
2 text fields, redisplay name in field, prompt window for input, cost in field	15			
Write restart message directly on the Web page	5			
PROBLEM 1				
4 radio buttons, 1 text field, and 1 button, radio buttons for input, total cost in field, button starts calculations, prompt window to get the user's name, alert	15			
Write restart message directly on the Web page	5			
PROBLEM 2				
2 text fields, 1 button, text field for input, product/service ordered in field, button starts calculations, prompt window to get the user's name, alert	15			
Alert window for restart message	5			
PROBLEM 3				

1 text field, 4 radio buttons, 1 button, radio buttons for input, redisplay name in field, button starts calculations	15			
Alert window for restart message	5			
PROBLEM 4				
1 select field, 1 text field, 1 button, select field for input, tax in field, button starts calculations, prompt window to get user's name, alert	15			
Alert window for restart message	5			
PROBLEM 5				
2 text fields, 1 button, text field for input, button starts calculations, prompt window to get user's name, name in field	15			
Write restart message directly on the Web page	5			
PROBLEM 6				
1 text field, 1 button, prompt window for input, button starts calculations, prompt window to get user's name, alert, total cost in field	15			
Write restart message directly on the Web page	5			
PROBLEM 7				
1 select field, 1 text field, 1 button, select field for input, redisplay name in field, button starts calculations	15			
Alert window for restart message	5			
PROBLEM 8				
1 text field, 4 radio buttons, 1 button, radio buttons for input, button starts calculations, prompt window to get user's name, alert, cost in field	15			
Write restart message directly on the Web page	5			
PROBLEM 9				
1 text field, 1 button, prompt window for input, button starts calculations, prompt window to get user's name, alert, product/service ordered in field	15			
Alert window for restart message	5
